VOL. XXII.—NO. 7035. PORTLAND, OREGON: MONDAY, NOVEMBER 27, 1882. PRICE—TEN CENTS.

EVENTS IN THE EAST.

General Logan Again Severely Speaks of Fitz John Porter.

LIKE LOST ON THE GREAT LAKES.

Mr. Langtry Has Entered New York Society—Mr. Beecher to Have a New Church, etc., etc.

SPECIAL DISPATCHES TO THE OREGONIAN.

NEW YORK, Nov. 26.—The excitement has not yet gone down again in reply to Gen. Logan's speech on the Fitz John Porter case, and Porter's friends are jubilant over the whole ground which Logan has taken. Logan's speech, and reflecting all of the general sentiment as to fairness and justice in the case, is the strongest argument that has been made by the Democrats in favor of Porter, and the friends of the latter say that Logan's speech will be the principal document used in the campaign in Ohio. Logan's friends say that he has been driven to the position which he has taken by the persistent attacks which have been made upon him by Garfield and his friends, and that he has been forced to defend himself. Logan's point that the record was made up by Garfield and Porter was ordered by Pope, and that Porter was ordered by Grant, is a point that the public will not overlook. Gen. Logan's point that the record was made up by Garfield and Porter was ordered by Pope, and that Porter was ordered by Grant, is a point that the public will not overlook. Gen. Logan's point that the record was made up by Garfield and Porter was ordered by Pope, and that Porter was ordered by Grant, is a point that the public will not overlook.

[illegible] Quibble.

TROY, Nov. 26.—Hon. Warren Wheaton, U. S. Marshal for the northern district of New York, was arrested in Albany on Monday, under an indictment charging him with conspiracy to defraud the United States in connection with the Star Route service. Wheaton was a prominent supporter of Gen. Arthur in the late campaign, and acted as one of the Republican leaders in this city. His theory is that Porter is a victim of the state contest, and that the Democrats, who control the state convention, have made use of the Republican machinery to defeat the election of the Republican candidate for Governor. Wheaton was released on bail.

Mrs. Langtry in Society.

NEW YORK, Nov. 26.—The production of Mrs. Langtry's name in New York society is not regarded by the best authorities as a success. Her reception was largely attended by persons who were curious to see her, but who did not call again. Mrs. Langtry's manners are said to be very free and easy, and her conversation is not considered refined. She is accompanied by a Mr. Jeffries, who is said to be a gambler, and who has been in jail in this city. Mrs. Langtry's husband is in Europe.

Shore of the Great Storm.

NEW YORK, Nov. 26.—The steamer Wisconsin arrived this afternoon from Liverpool. She picked up eight men in the last storm off the coast of Ireland. One of the wrecked men, Thomas Hughes, master of the British schooner, whose captain, Millville, went down with all on board, says that the vessel was trying to keep off the coast of Ireland, and that the crew had been without food. Three of the sailors are missing.

Mich. Nov. 26.—Four schooners were ashore at Point au Sable Thursday and two at Frankfort.

Fire Wanted.

CHICAGO, Nov. 26.—In the trial for damages against the city for the death of a young lady named Mrs. Scoville a new trial was granted Mrs. Scoville, one doctor testified that her death was caused by a fall, while two others testified that it was caused by a blow. The first, believed after a post mortem, went to the house to embalm the body and make good his statement by showing the collar bone. He also claimed to have found the bone by dissecting the corpse by a post mortem. The second, who had not seen the body at first agreed with the first after the post mortem. The jury, after being out all night, returned to say that they could not agree. The chances, I understand, are that the case will be settled out of court, as the city is anxious to avoid the publication of the evidence which will be brought out in the trial.

New Trial for Mrs. Scoville.

CHICAGO, Nov. 26.—Judge Lonisie, in the county court, granted Mrs. Scoville a new trial on the first, believed after a post mortem, went to the house to embalm the body and make good his statement by showing the collar bone. He also claimed to have found the bone by dissecting the corpse by a post mortem. The second, who had not seen the body at first agreed with the first after the post mortem. The jury, after being out all night, returned to say that they could not agree. The chances, I understand, are that the case will be settled out of court, as the city is anxious to avoid the publication of the evidence which will be brought out in the trial.

The Stock Exchange.

NEW YORK, Nov. 26.—One million and more were lost here by an explosion of dynamite in a small mine within the city limits. Several buildings were thrown down, and the inmates were badly shaken up. Many persons were injured, but none fatally. Several small houses were wrecked, and the streets were strewn with glass. No estimate of the damage has been made. Many persons were thrown out of bed, and the shock was felt for miles around.

Accidental Bullet's Child.

NEW YORK, Nov. 26.—Mrs. Melville, wife of Brevet Major-General Melville, accompanied by her husband, left this morning for the residence of Mr. Pullman, and her daughter Arthur Melville. The child was placed in the care of Professor Melville, and she was taken to the residence of Mr. Pullman.

Political Work.

NEW YORK, Nov. 26.—In the Jefferson circuit court this morning Mr. Bowen, publisher of the Pine Bluff (Ark.) Democrat, was arrested on a charge of criminal libel, preferred by Mr. Breckenridge, congressman from Arkansas. Bowen, it is alleged, published an article charging Breckenridge with political corruption. Payment of the sum was demanded, and bail was fixed at $500. To-day the jury rendered a verdict of not guilty.

Oil Stabbed.

NEW YORK, Nov. 26.—In the case of Mrs. Sullivan of the tenth precinct, who was arrested yesterday morning, near New York, on the charge of killing her husband, Officer Sullivan, by throwing oil upon him, and setting him on fire, the coroner's jury rendered a verdict that the deceased came to his death by the burning of the oil, and that the prisoner was responsible for the act.

Shipping Report.

NEW YORK, Nov. 26.—The annual report of the collector of customs for the fiscal year ending June 30, 1882, shows that there was paid into the treasury from customs, the proceeds relating to which are now deposited in his office, $222,409,370, and paid out of the treasury on various accounts, $1,000,000.

Burning of the Royal Hotel.

NEW YORK, Nov. 26.—The Chicago & Northwestern railway is now controlled a majority interest, and has declared a quarterly dividend of one per cent, payable the 27th of December.

SPECIAL DISPATCHES TO THE OREGONIAN.

CHICAGO, Nov. 26.—The annual meeting of the Minneapolis & St. Louis railway, president of the Minneapolis & St. Louis railway, was held in Minneapolis to-day. The annual report

The Daily Oregonian

MONDAY MORNING, NOV. [illegible]

A GREAT DAY.

[illegible]

But we take leave to question the wisdom of this all-pervading policy in favor of free whisky and tobacco. The allegation is made in advance of the extreme protection to resist any interference with the great profits which the present tariff secures to them. The taxes on whisky and tobacco are not a burden on anybody. Repeal them and the manufacturers will only make so much the more out of the duties which now go from immediate consumption, and the price of the article will not be reduced by a repeal should reduce the price, it would only increase consumption, and thereby do so much the more harm. To dealers some of the provisions of the law are doubtless vexatious, and bring no revenue to pay for the trouble they cause; but those could be simplified without abolishing the taxes.

All the taxes that spirituous liquors and tobacco can be made to pay should always be collected. That is, the taxes on these commodities ought always to be kept at as high a rate as possible without creating incentives to fraud and so defeating the object. Another thing. If we strike off the one hundred millions of revenue annually obtained by the internal treasury through these taxes, then no modification of the tariff on imports will be possible. There is a tax on all the necessaries of life, amounting probably to $500,000,000 a year, which is paid by consumers, of which, however, only about one-third goes into the national treasury, while the other two-thirds are divided as special bounties and subsidies among favored individuals and corporations. Free trade in these necessary commodities is not expected or desired but a reasonable modification and reduction of the rates of duty sought to be granted. At any rate, whisky and tobacco ought not to be the only free articles which the American citizen is allowed to buy and consume.

THIS "REBUKE."

It is a favorite saying of the democratic press that the republican party has been rebuked by the people. It is an error. The republican party has itself rebuked the losses who had usurped authority over it and done improper things in its name. There has been no vote of confidence in the democratic party. On a direct issue of party policy the democratic party would be no stronger now than it was in 1880. What has it done since 1880 to create additional confidence in itself? It offers nothing now that it did not offer then. Republicans deliberately defeated their own party in the recent elections to get rid of the losses, who, after the death of President Garfield, had reversed the policy which was intended by the republicans of the country when they elected him, and which they mean to reestablish through the next presidential election. It is a great mistake on the part of our democratic brethren to claim for their party the credit of a result which republicans deliberately brought about for their own specific objects. The question whether the democratic party was worthy of the confidence of the country is not, was not presented in these elections at all. Two years hence that, however, will be the leading question. Then the democratic party will not stop [illegible] an easy and accidental victory, it is quite safe to say.

If the news from the east there are many reports of a dissolution of the president's cabinet. All past history would seem to furnish precedents for its reorganization. Brewster, of Pennsylvania, Folger, of New York, and Teller, of Colorado, by their action at the primaries, made the test one of the strength of the administration in their respective states. They all succeeded at the primaries, triumphed in the conventions, and, in the face of the federal patronage, were repudiated by the people. Common political decency indicates that, in obedience to this expressed will of the people, the president should reorganize his cabinet. President Arthur is a astute politician, and is not likely to overlook the rebuke his counsellors have received. It will, therefore, not be a matter for surprise to hear, early in the new year, that a reorganization has been effected.

Coal gas is to have another competitor, it seems. The electric light is not to have the field of opposition all to itself. In New York a company has been organized to make an inflammable and illuminating gas by the decomposition of steam and liquid hydro-carbon on highly heated lime. The operation produces almost pure hydrogen, which, being carburetted, results in a gas of between 90 and 50 candle power. The process, which was discovered by a French chemist and improved by a Polish one, is said to be economical, and it is to be hoped that the new gas will supersede coal for running engines, and possibly in domestic heating and cookery. It is made without coal oil being used in its preparation. It is to be tested in New York by one or more gas companies, and if it comes up to expectations, it will take the place of the ordinary article.

The Springfield *Republican* always has a plain and sensible way of putting things. Speaking of the demand for repeal of the internal revenue taxes in order that high duties on imports may be maintained, it says: "We believe that the people prefer that the taxes be paid out of the whisky-barrel rather than out of the sugar-bowl." Further, "if the democratic party abolishes the taxes on whisky and tobacco it will experience a revulsion in 1884. That party always carries the whisky and tobacco states, except Illinois. It has little to gain by such a policy, and much to risk."

The Bellows of New York City, besides contributing liberally for the benefit of the unfortunate of their own race, are not wanting in charity to suffering humanity in general. Some of their societies and hospitals admit persons of all nationalities. The orphan asylum of this association, which looks after [illegible] Christian work. But the chief interest [illegible]

MONDAY MORNING, NOV. 27, 1882.

PACIFIC COAST NEWS.

CALIFORNIA.

The Watts Extradition Case.

SAN FRANCISCO, Nov. 26.—The writ directing a Chinese prisoner named Ah Quong to be brought before Judge Hoffman on a writ of habeas corpus, and the answer of Sheriff Whitney, were read in court. Counsel for petitioner argued that the Sheriff had no right to hold the prisoner, as he was not charged with any crime, but was held simply at the request of the Chinese Consul. The Sheriff's counsel argued that the prisoner was held by virtue of the extradition treaty between the United States and China, and that the Consul had a right to demand the prisoner. Judge Hoffman took the matter under advisement, and will render his decision on Monday next.

A Rapid Running Fire.

SAN FRANCISCO, Nov. 26.—About 3:30 A. M. yesterday a fire broke out in the sash factory of J. E. Elkins & Co., on Fremont street, between Harrison and Bowie, and, spreading, destroyed a three-story frame building occupied by the planing mill of Rodgers, Thompson & Co. The flames then crossed to the adjoining wagon shop of John Epperly & Son, running through the block to Main street, where it burned a two-story frame occupied below as a storehouse by Hamilton, Carrigan & Co. and above by Brickle, the manufacturer of elevators. The total loss is from $5000 to $10,000, fully insured. Shank Gollin, a member of engine Co. No. 2, was severely injured by the fall of the front of Elkins' building.

A Chinaman Killed.

SAN FRANCISCO, Nov. 26.—A dispatch from Chico brings information of the murder yesterday of a Chinaman in the vicinity of a mining camp named Ghiramen, in the county. The murder was committed by a young man named Grant. Difficulty between the Chinaman and Grant had a dispute, which the former applied a rifle ball to the latter. Nothing more was said or thought of the matter until last evening, when the Chinaman was eating supper; Grant slipped up behind him and struck him over the head with a club. The Celestial struck him over the head with a club. The Celestial fell and Grant struck several more blows on the man fell and was struck several more blows on the head, crushing his skull. He lived until Saturday afternoon. Grant fled and is still at large. He is a young man nineteen years of age.

Wheeler's Last Hope.

The attorney for Wheeler, the strangler, filed papers and transcript on appeal yesterday with the district attorney of department No. 12, superior court, and a certified copy of them was served on Sheriff Rodgers, notifying him of a stay of proceedings in Wheeler's case. This defers for an indefinite period the appointed execution which was to have taken place to-morrow at the county jail. The move takes the case to the supreme court near month to case goes along to the supreme court near month to be acted upon. It may be three or it may be eight months before the strangler is hanged.

Barkentine Dismasted.

SAN FRANCISCO, Nov. 26.—A dispatch to the merchant's exchange announces that the barkentine Katie Flickinger was totally dismasted yesterday during a heavy gale at Bull rax. Her deck-load of lumber was washed away. The barkentine sailed from Astoria on October 6.

Guilty.

SAN FRANCISCO, Nov. 26.—In the third trial of Clarence dray for the murder of Theodore Velancy, late editor of the Santa Barbara Press, the jury found a verdict of not guilty.

Cut His Throat.

STOCKTON, Nov. 26.—Peter Crane, a laborer, aged about 40 years, this afternoon cut his throat. The wound is not mortally fatal.

NEVADA.

Mining Matters.

VIRGINIA, Nov. 26.—The west drift on the 2700 foot level of the Sierra Nevada was extended 34 feet during the week. No measure of formation. An east drift has been started and is out 15 feet.

The Union Consolidated are sinking a winze on the 3600 foot ore and took out 53 tons of ore from the 2700 foot level during the week.

The Belcher is shipping forty tons of ore per day.

The Gould & Curry is shipping forty tons of ore per day.

The south drift of the 3600 foot level of the Chollar-Potosi is in 60 feet in porphyry, showing no water. The advance is 6 feet per week.

Accident as a Freight Train.

WINNEMUCCA, Nov. 26.—A freight train consisting of 36 cars broke through a culvert, over which the engine passed safely, near White Plains, last night. A brakeman named Campbell, who leaves a wife and child, was killed, and 28 cars were wrecked. A track is being built around the wreck, and trains are expected to pass this p. m.

The Wishes Plute Trouble.

RENO, Nov. 26.—Nothing further has been heard of the reported fight between the Piutes and the Washoes as a member of the Pancoe tribe says Washoes as a member of the Pancoe tribe says there is none say the report is probably without foundation.

THE TURF.

Pacific Coast Races.

SAN FRANCISCO, Nov. 25.—The four mile race at the Bay District Park festering attracted more attention than any sporting event for a long time past. There was a large attendance at the pools room before the race horses selling as follows: Freeling, $25; Red, Collier, $60; Chas. Done, 10; Nathan Coombs, $15
